GLOBAL EXPEDITED PACKAGE SERVICES - NON-PUBLISHED RATES 13
(GEPS – NPR 13) TO THE COMPETITIVE PRODUCTS LIST AND
NOTICE OF FILING GEPS – NPR 13 MODEL CONTRACT AND APPLICATION FOR
NON-PUBLIC TREATMENT OF MATERIALS FILED UNDER SEAL
(February 15, 2018)**

In accordance with 39 U.S.C. § 3642, 39 C.F.R. § 3020.30 and Order No. 3865,¹ the United States Postal Service (Postal Service) hereby requests that Global Expedited Package Services – Non-Published Rates 13 (GEPS – NPR 13) be added to the competitive product list within the Mail Classification Schedule (MCS). The Postal Service also gives notice, pursuant to 39 U.S.C. § 3632(b)(3) and 39 C.F.R. § 3015.5, that the Postal Service has created a GEPS – NPR 13 model contract.

I. Introduction

Prices and classifications not of general applicability for Global Expedited Package Services - Non-Published Rates were first established by the Decision of the

¹ Order No. 3865, Order concerning the Addition of Global Expedited Package Services – Non-Published Rates Contract 12 (GEPS – NPR 12) to the Competitive Product List, PRC Docket Nos. MC2017-105 and CP2017-152, April 20, 2017.

Governors of the United States Postal Service on the Establishment of Prices and Classification for Global Expedited Package Services - Non-Published Rates

(Governors' Decision No. 10-2).² Subsequently, various iterations of GEPS - Non-published Rates (GEPS - NPR), most recently GEPS – NPR 9³, 10⁴, 11⁵, and 12⁶ were added to the competitive product list within the Mail Classification Schedule (MCS). The Postal Service filed a substantial number of GEPS - NPR 2 through 12 contracts with the Commission.⁷

The Postal Service has created a Management's Analysis of the Prices and Methodology for Determining Prices for Negotiated Service Agreements under Global Expedited Package Services – Non-Published Rates 13 (GEPS – NPR 13 Management Analysis) along with an accompanying financial model that revise the previously filed GEPS - NPR 12 Management Analysis and its financial model. Consequently, pursuant to 39 C.F.R. § 3015.5 and in accordance with the procedure set forth in 39 U.S.C. §

- Attachment 4, a redacted version of the GEPS - NPR 13 model contract.

Governors' Decision No. 11-6, the GEPS - NPR 13 Management Analysis, the GEPS - NPR 13 model contract, and the GEPS - NPR 13 financial model that includes maximum and minimum prices for PMEI, PMI, and FCPIS that establish compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5, are being filed separately under seal with the Commission. Redacted versions of the supporting financial documentation for the GEPS - NPR 13 model contract are included with this filing in separate Excel files.

II. Background

The Postal Service's Governors established rates and the classification for GEPS - NPR by Governors' Decision 10-2,¹³ and for GEPS - NPR 2 by Governors' Decision No. 10-7.¹⁴ The changes that resulted in the rates and the classification for GEPS - NPR 3 through 12 were authorized by Governors' Decision No. 11-6, which states that with respect to Outbound International Competitive Agreements, such as GEPS – NPR 3 through 12, “management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.”¹⁵

GEPS - NPR 1 and 2 offered incentive pricing to small and medium-sized business mailers that satisfy prescribed capability requirements and that are willing to enter a contractual commitment to minimum levels of revenue from use of Priority Mail Express International (PMEI) and Priority Mail International (PMI) products. GEPS - NPR 3 through 7 offered such incentive pricing for not only PMEI and PMI, but also Global Express Guaranteed (GXG). GEPS – NPR 8, 9, 10, 11 and 12 offer such incentive pricing for not only GXG, PMEI, and PMI, but also First-Class Package

MC2010-29 and CP2010-72, July 16, 2010.

¹⁵ Governors' Decision No. 11-6, at 1-2. Governors' Decision No. 11-6 states, at 1, that “Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2).”

International Service (FCPIS). GEPS NPR 13 offers incentive pricing only for PMEI, PMI, and FCPIS.

The Postal Service has decided to revise the Management Analysis, financial model, and model contract for GEPS – NPR. These changes will affect more than the inputs page of the GEPS – NPR 12 financial model. In accordance with Order No. 3865,¹⁶ the Postal Service is providing notice of this change in rates not of general applicability, which results in a request to include GEPS - NPR 13 in the competitive products list.

III. GEPS - NPR 13 Model Contract

The GEPS - NPR 13 model contract is similar to the GEPS - NPR 12 model contract that the Commission reviewed in Order No. 3865. The major differences between the GEPS - NPR 13 model contract (Attachment 4 of this filing) and the GEPS - NPR 12 model contract reviewed by the Commission in Order No. 3746 include:

- The removal of the Global Express Guaranteed (GXG) product and references to that product throughout the contract;
- The removal of the International Merchandise Return Service (IMRS) option and references to that option throughout the contract;
- A revised Article 8(7) and an additional Article 8(8);
- The addition of Article 11(2);
- The addition of Article 22(7);
- Revisions to Article 26 concerning Assignment;
- Revisions to Article 30 concerning Warranties and Representations;

¹⁶ Order No. 3865, at 8.

- The addition of Article 35 concerning Record Keeping and Audit; and
- The addition of Article 36 concerning Expiration of Agreement Rates.

The changes do not affect the general market characteristics of the GEPS – NPR product, which continues to be designed for small- and medium-sized business mailers wishing to use international expedited delivery services for their correspondence and order fulfillment.

The major differences between GEPS – NPR 12 and GEPS – NPR 13 are in the Management Analysis, the financial model, and the rates themselves. These changes to the GEPS - NPR product are authorized by Governors’ Decision No. 11-6, which states that with respect to Outbound International Competitive Agreements, such as GEPS - NPR 13, “management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.”¹⁷

The Commission anticipated that notice of new rates for GEPS - NPR would necessitate the addition of successor groupings under this competitive product. Contracts with customers offered rates established for GEPS - NPR 13 will be filed in the docket in which this notice was filed. Unless the Commission indicates otherwise, the Postal Service anticipates filing GEPS - NPR 13 contracts in this docket, in filings that are similar to the Postal Service’s filings of GEPS – NPR 12 contracts.¹⁸

¹⁷ Governors’ Decision No. 11-6, at 1-2. Governors’ Decision No. 11-6, at 1, states that “Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2).”

¹⁸ In Order No. 3865, at 8, the Commission provided the following instructions concerning the filing of GEPS - NPR 12 contracts: “A copy of each contract, along with the financial model inputs used to generate rates for each contract, must be filed with the Commission within a reasonable time, e.g., within 10 days of the effective date of the contract.”

IV. Application for Non-Public Treatment

The Postal Service maintains that certain portions of Governors' Decision No. 11-6, the GEPS - NPR 13 Management Analysis, the GEPS - NPR 13 model contract, the GEPS - NPR 13 financial model that includes maximum and minimum prices for PMEI, PMI, FCPIS, as well as related financial information, should remain confidential. As Attachment 1 to this Notice, the Postal Service files its application for non-public treatment of materials filed under seal. Consistent with Order No. 630 and as was done for GEPS – NPR 2 through 12, the Postal Service anticipates providing to the Commission the mailer agreements memorializing the sale of GEPS - NPR 13. A minimal amount of information in GEPS - NPR 13 agreements is considered to be confidential, because of the commercially sensitive nature of the information or its identification of a particular customer. The Postal Service is including with this filing as Attachment 4, the GEPS - NPR 13 model contract, with some information redacted.¹⁹ The application for non-public treatment attached to this notice addresses the redactions to those materials, including some additional information that will be redacted in signed GEPS - NPR 13 agreements. When the Postal Service files actual customer agreements with the Commission in this docket, the Postal Service will rely on the application for non-public treatment included as Attachment 1 to this filing for protection of the information redacted from those materials. A full discussion of the requested elements of the application appears in Attachment 1.

¹⁹ The Postal Service notes that the model agreement is for nationwide access to its network. Variations for other access options, including "Metro" and "ISC Drop Ship," are familiar to the PRC and the interested public from numerous GEPS – NPR filings.

V. Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that GEPS - NPR 13 is in compliance with the requirements of 39 U.S.C. § 3633. Accordingly, the Postal Service respectfully requests that the Commission add Global Expedited Package Services - Non-published Rates 13 to the GEPS - NPR product grouping in the competitive products list of the MCS.

Respectfully submitted,

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to a Notice of changes in prices for Global Expedited Package Services - Non-published Rates (GEPS - NPR 13). Governors' Decision No. 11-6, the GEPS - NPR 13 Management Analysis, the GEPS - NPR 13 model contract, and the GEPS - NPR 13 financial model (including the maximum and minimum prices for PMEI, PMI, and FCPIs and related financial information) are being filed separately under seal with the Commission, although redacted copies of the materials are filed with the Notice as Attachments 2A, 2C, and 4, and in separate Excel files.

The Postal Service hereby furnishes below the justification for this application required by 39 C.F.R. § 3007.21(c).

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. §

504(g)(3)(A).¹ Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant the Postal Service's application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

Third parties that may have a proprietary interest in the information in this filing include the PC Postage vendors authorized to offer services to contract rate customers and the designated operators or foreign posts with which the U.S. Postal Service settles accounts.

The Postal Service employee responsible for providing notice to the PC Postage Provider(s) with proprietary interest in the materials filed in these dockets is Ms. Amy E. Douvlos, Marketing Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5427, Washington, DC 20260-4017, whose email address is Amy.E.Douvlos@usps.gov, and whose telephone number is 202-268-3777.²

¹ The Commission has indicated that "likely commercial injury" should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

² The Postal Service has provided a blanket notice to PC Postage Providers in light of the fact that these filings are fairly routine. To the extent required, the Postal Service seeks a waiver from having to provide each PC Postage Provider notice of this docket.

As for foreign postal operators, the Postal Service provided notice to all foreign postal operators within the Universal Postal Union network through an International Bureau Circular issued on December 18, 2017, that the Postal Service will be regularly submitting certain business information to the Commission. Some UPU-designated foreign postal operators may have a proprietary interest in such information. The circular includes information on how third parties may address any confidentiality concerns with the Commission. In addition, contact information for all UPU Designated Operators is available at the following link, which is incorporated by reference into the instant application: http://pls.upu.int/pls/ap/addr_public.display_addr?p_language=AN.³

Consistent with the Commission's instructions in Order No. 3865, the Postal Service will, in the future, file with the Commission GEPS - NPR 13 customer-specific agreements.⁴ Concerning those agreements, the customer with which the agreement is made would have a proprietary interest in the materials. Article 19 of the model agreement provides each customer with notice of the Postal Service's intent to file the agreement with the Commission and its intent to seek non-public treatment of the information the Postal Service determines may be withheld from public disclosure. The notice provides the customer with the docket number in which the agreement will be filed and gives the customer information about how to raise its confidentiality concerns directly with the Commission. Each customer will identify a point of contact in Article 31

³ To the extent required, the Postal Service seeks a waiver from having to provide each foreign postal operator notice of this docket. It is impractical to communicate with dozens of operators in multiple languages about this matter. Moreover, the volume of contracts would overwhelm both the Postal Service and the applicable foreign postal operators with boilerplate notices.

⁴ PRC Order No. 3865, Order Concerning the Addition of Global Expedited Package Services – Non-Published Rates Contract 12 (GEPS – NPR 12) to the Competitive Product List, Docket Nos. MC2017-105 and CP2017-152, April 20, 2017, at 8.

of the contract, which the Commission may use, should it determine that there is a need to provide notice of information requests or anticipated disclosures in the future.

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Notice filed in this docket, the Postal Service included the applicable Governors' Decision, a GEPS - NPR 13 Management Analysis, a model contract, and a financial model that the Postal Service will use to generate customer-specific rates. These materials were filed under seal, with redacted copies filed publicly. The Postal Service maintains that the redacted portions of these materials should remain confidential as sensitive business information. Additionally, the model contract includes highlighted sections that may contain information that will be redacted when the customer-specific agreements are filed in this docket in the future.

Governors' Decision No. 11-6 is reproduced as Attachment 2A and includes as supporting materials an Attachment A. In addition, Attachments 2B through 2D of this filing provide information specific to Postal Service management's preparation of the GEPS - NPR 13 product description. Redactions appear on page two of Governors' Decision No. 11-6, pages one and two of Attachment A of that Decision, throughout the GEPS - NPR 13 Management Analysis (Attachment 2C) and the table of GEPS - NPR 13 PMEI, PMI, and FCPIS minimum and maximum prices (Attachment 2D, which is included in the financial workpapers). These redactions protect sensitive commercial information concerning the incentive discounts and their formulation, the applicable cost-coverage, and the non-published rates themselves.

With regard to the model GEPS - NPR 13 agreement filed in this docket as Attachment 4, some customer-identifying information appears in the highlighted sections of the agreement on page 1, in Article 31, in the signature block, and in the footer of the agreement and its annex or annexes. This information constitutes the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). Therefore, such information will be redacted in signed GEPS - NPR 13 agreements. Additional redactions appear in Articles 2, 7, 9, 15, and 37. These redactions, along with the highlighted section of Article 11 that will also be redacted in signed GEPS - NPR 13 agreements, include information about PC Postage Providers, various penalties and interest that may be assessed under certain circumstances, the customer's revenue commitment, and the percentage of cost increase which may trigger a consequential price increase. In addition, the prices in the annexes to GEPS - NPR 13 contracts will be redacted.

Any performance reports filed in this docket will typically show the actual revenue and cost coverage of the customer's completed contract. The Postal Service will redact all of the values represented in such performance reports as commercially sensitive business information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

Governors' Decision No. 11-6 and its Attachment A, as well as Attachments 2C and 2D and the accompanying financial models, include the Postal Service's desired cost coverage for GEPS agreements, specific rate information and a detailed

description of the methodology used to establish the rates, which are highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of knowing the range of prices that may be offered by the Postal Service to its GEPS - NPR 13 customers for PMEI, PMI, and FCPIS with volume incentives applied and the contribution margin used to establish the prices. Thus, competitors would be able to take advantage of the information to offer lower pricing to the GEPS - NPR customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the expedited package services market.

Potential customers could also take advantage of the information in negotiating the specific rates to be applied to their circumstances, depending upon the downstream access choices they make and their revenue commitment level. They could demand the absolute floor, when it would otherwise be possible in some cases for the Postal Service to offer a higher, but still competitive rate.

If the portions of the contract that the Postal Service determined to be protected from disclosure due to its commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. Redacted information in the model contract (which is included as Attachment 4 to this Notice) includes various penalties, and the percentage of cost increase which may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess the offers made by the Postal Service to its customers for any possible comparative vulnerabilities and focus

sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, potential customers could use the information to their advantage in negotiating the terms of their agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

Customer-identifying information redacted from the customer agreements could be used by competitors to target their marketing efforts on current USPS customers.

The redactions in the financial models include commercially sensitive business information from which the particular prices to be offered to specific customers are generated, while maintaining statutory cost-coverage requirements. Public disclosure of this information would give competitors an exact model of Postal Service pricing that could be used to develop lower pricing to present to customers in an attempt to convert them from contracts with the Postal Service.

Information in the financial models may also include sensitive commercial information related to agreements between the Postal Service and PC Postage Providers. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Providers. Using detailed information about such an agreement, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Providers could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Public disclosure of established rates and the financial model and methodology used to generate the rates would be used by competitors and customers to the detriment of the Postal Service.

Hypothetical: A competing expedited package delivery service obtains a copy of the unredacted version of the Governors' Decision, the financial model, or Management Analysis from the Postal Regulatory Commission's website. The competing service reviews the rates or the model or both and then sets its own rates for products similar to what the Postal Service offers its GEPS - NPR 13 customers under the Postal Service's rates. The competing service markets its ability to guarantee to beat the Postal Service on price for international expedited delivery services. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service out of the business-to-business and business-to-customer expedited delivery services markets for which the GEPS - NPR 13 product is designed.

Identified harm: Public disclosure of the rate charts in Attachment 2D would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: A customer with the rate information included in Attachment 2D could, on a cell by cell basis, demand the lowest possible rate in every rate cell, knowing that the Postal Service's approved rates include those floor amounts. Using the rate information, a customer could threaten that it would not use the Postal Service for its expedited

package service delivery needs if it did not receive the lowest possible rates. This would severely affect the Postal Service's ability to offer competitive but profitable rates to its customers within the minimum and maximum rates established by the Governors' for each rate cell.

Identified harm: Public disclosure of the information redacted from the model contract would provide competitors commercial advantages at the Postal Service's expense.

Hypothetical: A competitor is able to review the Postal Service's penalty clauses and underlying cost increase trigger for pass-through increases in pricing. The competitor takes that information and uses it to differentiate its own product from the Postal Service's product when it sells to potential customers, convincing those customers that the competitor's product is better.

Identified harm: Public disclosure of identifying information concerning a customer and of a performance report concerning a contract with that customer would give competitors a marketing advantage.

Hypothetical: A competitor is able to identify Postal Service customers being offered GEPS - NPR 13 rates for PMEI, PMI, and FCPIS from information provided on the PRC's website. The competitor uses this information to contact the customer directly and attempt to undersell the Postal Service and obtain new business from the Postal Service's customer. The competitor could use information included in a performance

report to “qualify” potential customers, choosing to focus marketing efforts only on those customers that have a mailing profile that is attractive to the competitor, based on its business operations.

Identified harm: Public disclosure of information in a GEPS - NPR 13 contract involving postage payment through a PC Postage Provider, and of information in related financial workpapers, would be used by the competitors of the PC Postage Provider to the Postal Service and/or the PC Postage Provider’s detriment.

Hypothetical: A firm competing with the customer’s PC Postage Provider obtains a copy of the unredacted version of a GEPS - NPR 13 contract involving postage payment through a PC Postage Provider, and financial workpapers, from the Commission’s website. The firm uses the information to assess the PC Postage Provider’s revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for international expedited and parcels products (including both private sector integrators and foreign postal administrations), as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or

potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

Consistent with PRC Order No. 3746, the Postal Service will file customer agreements in this docket. The Postal Service considers this Application sufficient to fulfill its regulatory requirements for justifying its determinations that the information redacted from those materials should be treated as non-public.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.

**DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE
ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE
AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND
INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED
COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)**

March 22, 2011

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover [REDACTED] [REDACTED] costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegee(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

ORDER

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be [REDACTED]

[REDACTED]

The cost coverage for a product equals [REDACTED]

[REDACTED]

[REDACTED]

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

RESTRICTED AND SENSITIVE BUSINESS INFORMATION - DO NOT DISCLOSE

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. § 3633(a)(3), which, as implemented by (39 C.F.R. § 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)).

Management's Analysis of the Prices and Methodology for Determining Prices for Negotiated Service Agreements under Global Expedited Package Services - Non-Published Rates 13 (GEPS - NPR 13)

Through the establishment of Global Expedited Package Services Non-Published Rates (GEPS - NPR) 1, 2, 3, 4, 4 Version 2, 5, 6, 7, 8, 9, 10, 11, and 12¹ management has streamlined the process for approving GEPS agreements, while maintaining their profitability and competitive positioning in the market. This improvement reduces the administrative time and effort required to navigate the regulatory process and eliminates uncertainty for both the customers and the Postal Service concerning the implementation and activation of the sales agreements.

Overview of the GEPS - NPR 13 product

The GEPS - NPR 13 product offers discounts based on revenue for Priority Mail Express International (PMEI), Priority Mail International (PMI), and First Class Package International Service (FCPIS), with the exception of PMEI Flat Rate items and PMI Flat Rate items. The Postal Service offers [REDACTED] based on a mailer's revenue commitments for PMEI, PMI, and FCPIS.

GEPS - NPR 13 PMEI and PMI prices are based on the level of downstream access: Nationwide, Metro, International Service Center (ISC) Drop Ship, and ISC Presort Drop Ship.² Nationwide access does not restrict from which ZIP Code mail is tendered. The Metro offering requires that the mailer tender at designated locations within 300 miles of an ISC to avoid domestic air transportation costs. The ISC Drop Ship service requires the mailer to tender directly to an ISC, thereby eliminating both domestic air and local surface transportation costs to the USPS. In addition, at the mailer's option, a further discounted ISC Presort Drop Ship service is available for PMEI and PMI destined to

MC2017-105 and CP2017-152, March 31, 2017, Attachment 2C).

certain countries, which requires the mailer not only to tender directly to an ISC, but also to meet specific preparation requirements.³

GEPS – NPR 13 FCPIS prices are also based on the level of downstream access: either Nationwide or ISC Presort Drop Ship. Nationwide access does not restrict from which ZIP Code mail is tendered. The ISC Presort Drop Ship service is available for FCPIS destined to certain countries, which requires the mailer not only to tender directly to an ISC, but also to meet specific preparation requirements.⁴

The following tables summarize the GEPS - NPR 13 options and potential pricing incentives for PMEI, PMI, and FCPIS based on customer revenue commitment level. A GEPS - NPR 13 customer is required to meet an annualized minimum commitment of at least fifty thousand dollars (\$50,000) in postage paid for PMEI, PMI, and FCPIS combined under a GEPS - NPR 13 agreement.⁵

⁵ The Postal Service anticipates that some GEPS – NPR 13 agreements will not include rates for all three products (PMEI, PMI, and FCPIS) and may only include a subset of country groups within rate tables. This measure avoids the need to produce lengthy rate tables when a customer may only intend to mail to a single country or small set of countries.

Minimum and Maximum Prices for PMEI, PMI, and FCPIS

PMEI, PMI, and FCPIS published rates are set by country of destination and weight of the article. Currently, FCPIS has 9 price groups and PMEI and PMI have a total of 17 price groups each. The weight steps for PMEI range from 0.5 pound to 70 pounds, and PMI ranges from 1 pound to 70 pounds. The weight steps for FCPIS range from 1 to 64 ounces.

The minimum potential prices for PMEI, PMI, and FCPIS under GEPS - NPR 13 are the prices that may be offered to a mailer making a revenue commitment [REDACTED]. Under these circumstances, the mailer could potentially be provided incentives resulting in prices that are [REDACTED].

The potential minimum prices for each destination country group consist of the [REDACTED]
[REDACTED]
[REDACTED]

For PMEI, PMI, and FCPIS, GEPS - NPR 13 customers who select postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) are required to meet minimum volume or weight requirements established for presentation of a manifest mailing and to use USPS-provided software to generate labels and customs declarations. GEPS – NPR 13 customers that prepare and pay for PMEI, PMI, and FCPIS would receive incentives off the published rate for PMEI, PMI, and FCPIS via online at USPS.com®, or as registered end-users using an authorized PC Postage vendor (with

the exception of Click-N-Ship service),⁶ even if they were unable to present the articles using a manifest mailing.

The maximum potential price that GEPS - NPR 13 customers might pay for PMEI, PMI, and FCPIIS is [REDACTED]

[REDACTED] in accordance with the Pricing Methodology section of this Management Analysis. The prices resulting from Governors' Decision No. 16-8,⁷ which went into effect on January 21, 2018,⁸ are the basis for the PMEI, PMI, and FCPIIS ceiling prices for the GEPS - NPR 13 product grouping.

The minimum and maximum prices representing the floor and ceiling for PMEI, PMI, and FCPIIS prices under GEPS - NPR 13 are included in the GEPS - NPR 13 financial workpapers. The range of prices included in each cell represents all of the potential prices in one-cent increments that are to be considered for each cell, as if each one-cent increment actually appeared on the table. The potential prices that could be offered for GEPS - NPR 13 for PMEI, PMI, and FCPIIS, as authorized in Governors' Decision No. 10-7⁹ and Governors' Decision No. 11-6¹⁰, are all of the prices, in one-cent increments, between the minimum and maximum prices appearing in each rate cell listed by country group and the weight steps available to the applicable destinations.

As an example, for PMEI, a GEPS mailer sending an item weighing four pounds to a destination in country Group 1 using Drop Ship could potentially be offered a price [REDACTED] including every price in between in one-cent increments [REDACTED]. The exact price would be determined by applying a consistent methodology to the downstream access option, payment option and revenue commitment choices made by the customer.

Pricing Methodology

Management's pricing methodology begins with the cost coverage evaluation of the Postal Service's published prices. The absolute floor for GEPS pricing is defined by the incentives offered to [REDACTED] for the lowest weight step at each country rate group available. For each of these price cells, the Postal Service determines if there is cost coverage to support the applicable GEPS Non-published Rate.

Rate design involves the following constraints applied to each price cell:

Regulatory Review and Contract Implementation

In support of the Postal Service’s notification to the PRC of these new rates not of general applicability, the Postal Service will submit prices to the Postal Regulatory Commission (PRC) for [REDACTED]. These prices will represent the price floor for sales contracts offering GEPS - NPR 13 PMEI, PMI, and FCPIS rate incentives. The maximum potential price that GEPS - NPR 13 customers might pay for PMEI, PMI, and FCPIS is [REDACTED], in accordance with the Pricing Methodology section of this Management Analysis.

The Postal Service will continue to use a standard contract for GEPS - NPR 13, a product offered to customers in the small to medium sized enterprise market for FCPIS, PMEI and PMI. The GEPS - NPR 13 model agreement is included with this analysis and is a slightly modified version of the GEPS - NPR 12 model contract that was reviewed by the Commission in PRC Docket Nos. MC2017-105 and CP2017-152 in Order No. 3865.¹¹ There are a few differences between the GEPS - NPR 13 model agreement and the GEPS - NPR 12 model contract, including: the removal of the Global Express Guaranteed (GXG) product and references to that product throughout the contract, the removal of the International Merchandise Return Service (IMRS) option and references to that option throughout the contract, a revised Article 8(7) and an additional Article 8(8), the addition of Article 11(2), the addition of Article 22(7), revisions to Article 26 concerning Assignment, revisions to Article 30 concerning Warranties and Representations, the addition of Article 35 concerning Record Keeping and Audit, as well as Article 36 concerning Expiration of Agreement Rates.

In accordance with Governors’ Decision No. 10-7 and Governors’ Decision No. 11-6, the Postal Service will file the GEPS - NPR 13 product with the PRC. The filing will include this Management Analysis. Also, consistent with PRC Order No. 3865, the Postal Service will provide a copy of each GEPS - NPR 13 customer agreement to the PRC, along with the financial cost inputs used to generate the rates for the customer, and the effective

¹¹ PRC Order No. 3865, Order concerning the Addition of Global Expedited Package Services - Non-Published Rates Contract 12 (GEPS – NPR 12) to the Competitive Product List, Docket Nos. MC2017-105 and CP2017-152, April 20, 2017.

date of each GEPS - NPR 13 agreement. All contracts using the GEPS - NPR 13 model customer contract and the rates in this Management Analysis will be filed in a single docket and will be reported as a single competitive product in the appropriate Annual Compliance Report. Each GEPS - NPR 13 contract will bear a serial number, and subsequent information filed with the PRC concerning a specific contract will be filed with reference to the docket and serial number.

With GEPS - NPR 13, using the methodology described above, the Postal Service provides the prices within the established range to qualified customers applying for the incentives. Once a customer signs a GEPS - NPR 13 agreement under this pricing approach, the Postal Service begins the customer's incentive program as soon as the Postal Service and the customer are ready to implement it.

Benefits

In Order No. 728, the PRC stated that the development of the GEPS - NPR agreements "established an efficient process for the approval of GEPS agreements."¹² The methodology and process for implementing GEPS - NPR negotiated service agreements has proved advantageous. Under the GEPS - NPR process, the Postal Service has not had to certify the cost coverage of each contract, justify the addition of each contract to the competitive products list, and delay implementation of customer mailing incentives pending a positive review of the agreement by the PRC. The PRC, for its part, has not had to establish a docket for each contract, assign a Public Representative to review the contracts and related financial documents, and issue orders to add each contract to the competitive products list. It is anticipated that the GEPS - NPR 13 process will be quite similar to the GEPS - NPR 12 process, providing both the Postal Service and the PRC the means to decrease administrative costs associated with the GEPS contract review process. Since Postal Service revenues fund both organizations, savings to either organization result in overall savings for the Postal Service.

Additionally, the GEPS - NPR process makes it possible for the Postal Service to serve customers more effectively by enabling the Postal Service to promptly enter into sales contracts, instead of waiting for regulatory review of each individual contract and for a determination of each contract's functional equivalency to the established product grouping. As a result, the Postal Service is positioned better against competitors, and customers now have the certainty of knowing that when they sign a GEPS - NPR agreement with the Postal Service, they have a binding contract, not just a preliminary agreement that is contingent upon final regulatory review.

Summary

The prices and methodology employed in the GEPS - NPR 13 product grouping proposal are appropriate for the highly competitive international expedited delivery service market, which includes small to medium sized enterprises as mailers. When a customer opts to tender mail at a location that reduces costs to the Postal Service, the GEPS - NPR 13 rates reward the customer with pricing incentives. Likewise, when a customer commits

to a fixed level of revenue for FCPIIS, PMEI and PMI (which are strong contribution products), the Postal Service rewards the customer with pricing incentives that compete with other international expedited delivery service providers while maintaining the cost coverages necessary to make a positive contribution to the Postal Service's institutional costs.

Attachment 2E

Certification As To The Prices For Determining Prices For Applicable Negotiated Service Agreements Under Global Expedited Package Services - Non-Published Rates 13

I, Steve Phelps, Manager of Regulatory Reporting and Cost Analysis, Finance Department, United States Postal Service, am familiar with the prices that establish the price floor and the price ceiling for negotiated service agreements under the Global Expedited Package Services - Non-published Rates product grouping, which are presented in Attachment 2D. I am also familiar with the methodology described in Attachment 2C for determining the prices for customer-specific agreements. The prices contained in this filing were established in accordance with the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued March 22, 2011 (Governors' Decision No. 11-6), which established prices by means of price floor formulas.

I hereby certify that these prices are determined in a manner that satisfies applicable pricing criteria, using appropriate and accurate data. If the Postal Service were to enter into agreements and offer services that set prices at or above the price floors using the methodology described in Attachment 2C, the Postal Service would be in compliance with 39 U.S.C. § 3633(a)(1), (2) and (3). The minimum prices that establish the price floor and the methodology for determining the rates for individual customers provide that the agreements under Global Expedited Package Services—Non-published Rates should cover the product grouping's attributable costs, based on a distribution of historical customer volumes, and preclude the subsidization of competitive products by market dominant products. Even if all the agreements under Global Expedited Package Services - Non-published Rates were assigned prices at the price floor for the corresponding downstream access option, the prices and methodology used should prevent the product group from impairing the ability of competitive products on the whole to cover an appropriate share of institutional costs.

Statement of Supporting Justification

I, Donald W. Ross, Director, International Sales, am sponsoring the Request that the Postal Regulatory Commission (Commission) add the Global Expedited Package Services (GEPS) Non-Published Rates 13 (GEPS - NPR 13) product filed in Docket Nos. MC2018-125 and CP2018-170 to the competitive products list for prices not of general applicability. The proposed revised Mail Classification Schedule (MCS) language for GEPS - NPR 13 describes the requirements for this product. My statement supports the United States Postal Service's (Postal Service's) Request by providing the information required by each applicable subsection of 39 C.F.R. § 3020.32. I attest to the accuracy of the information contained herein.

(a) *Demonstrate why the change is in accordance with the policies and applicable criteria of the Act.*

The addition of this new product is in accordance with the policies and applicable criteria of the Act, because GEPS - NPR 13 is a product designed to increase the efficiency of the Postal Service's processes and enhance its ability to compete in the marketplace, while assuring that the product is not subsidized by market dominant products, covers the costs attributable to it, and does not cause competitive products as a whole to fail to make the appropriate contribution to institutional costs.

- (b) *Explain why, as to market dominant products, the change is not inconsistent with each requirement of 39 U.S.C. § 3622(d), and that it advances the objectives of 39 U.S.C. § 3622(b), taking into account the factors of 39 U.S.C. § 3622(c).*

Not applicable.

- (c) *Explain why, as to competitive products, the addition, deletion, or transfer will not result in the violation of any of the standards of 39 U.S.C. § 3633.*

GEPS - NPR 13 is a product designed to enable the Postal Service's sales force to quickly establish, based on customer revenue commitments, selection of downstream access option, and projected mailing profile, whether a GEPS-type agreement will be profitable enough to justify entering into an incentive-based mailing plan with that customer for Priority Express Mail International (PMEI), Priority Mail International (PMI), and First-Class Package International Service (FCPIS). The customer has the option of selecting postage payment through a permit imprint using USPS-provided Global Shipping Software (GSS) or through a USPS-approved PC Postage Provider. To accomplish this goal, the product design for GEPS - NPR 13 includes actual rates that, on a cell-by-cell basis, cover their costs or default to the lowest published rate, which the customer could get, even without a specific arrangement with the Postal Service.¹ Governors' Decision No. 11-6 authorized Postal Service management to prepare, for any product within the Outbound International Competitive Agreement grouping, a product description, including

¹ The product design for GEPS – NPR 13 is a revision of the product design for GEPS - NPR 1 approved by the Governors in Governors' Decision No 10-2, the product design for GEPS – NPR 2 approved by the Governors in Governors' Decision No 10-7, and the product design for GEPS – NPR 3, GEPS – NPR 4, GEPS – NPR 4 Version 2, GEPS – NPR 5, GEPS – NPR 6, GEPS – NPR 7, GEPS – NPR 8, GEPS – NPR 9, GEPS – NPR 10, GEPS – NPR 11 , and GEPS – NPR 12 authorized by the Governors in Governors' Decision No.11-6.

text for inclusion in the MCS, and present such product description to the Commission. The product description for GEPS - NPR 13 is set forth in Attachments 2B, 2C, and 2D which establish the prices and classifications for GEPS NPR 13.

The Postal Service's financial modeling in support of the GEPS - NPR 13 product included a cost-coverage analysis that was based on a 12-month historical profile of GEPS – NPR customers' mailing patterns for PMEI, PMI, and FCPIIS. This modeling demonstrated that GEPS - NPR 13, priced in accordance with the applicable Governors' Decision, and applied to the historical mailing profile resulted in adequate cost coverage to ensure that no cross subsidization of this product should occur. It also demonstrated that this new product should be able to contribute to institutional costs in addition to covering its own attributable costs.

- (d) *Verify that the change does not classify as competitive a product over which the Postal Service exercises sufficient market power that it can, without risk of losing a significant level of business to other firms offering similar products: (1) set the price of such product substantially above costs, (2) raise prices significantly; (3) decrease quality; or (4) decrease output.*

The addition of the GEPS - NPR 13 product to the competitive products list will not result in classifying a product over which the Postal Service has market dominance as a competitive product. The GEPS - NPR 13 product consists of sales of PMEI, PMI, and FCPIIS, which are a small part of all international revenue received by the Postal Service. International revenue makes up a tiny fraction of total Postal Service revenue. In the recent annual

reports of two of the Postal Service's competitors in the international package delivery market, Federal Express reported international revenue of \$8.24 billion for its FY2017, and United Parcel Service reported international revenue of \$12.35 billion for its FY2016. The Postal Service does not maintain a position of dominance in this market.

- (e) *Explain whether or not each product that is the subject of the request is covered by the postal monopoly as reserved to the Postal Service under 18 U.S.C. § 1696, subject to the exceptions set forth in 39 U.S.C. § 601.*

The GEPS - NPR 13 product consists of PMEI, PMI, and FCPIS. PMEI, PMI, and FCPIS are all classified as competitive products, falling outside the scope of the Private Express Statutes.

- (f) *Provide a description of the availability and nature of enterprises in the private sector engaged in the delivery of the product.*

As noted in part (d) above, major competitors in the market for PMEI, PMI, and FCPIS, include Federal Express and United Parcel Service, which are widely available to customers in the United States. Private consolidators, freight forwarders, and integrators also offer international shipping arrangements whereby they provide analogous delivery services under similar conditions.

- (g) *Provide any available information on the views of those who use the product on the appropriateness of the proposed modification.*

Customers using the prior stand-alone iterations of GEPS products have commented on their frustration with the regulatory process associated with implementing the agreements. Until their agreements are added to the competitive products list of the Mail Classification Schedule, they encounter risks

if they make changes to their businesses and processes prior to receiving confirmation that the rates are available for them to use. When they do business with the Postal Service's competitors, they are able to commit to a discounted shipping solution and immediately begin receiving the benefits.

Additionally, customers express frustration if they receive a provisional offer of prices from the Postal Service, which later must be rescinded because the customer's projected mailing profile shows that the GEPS agreement will not be able to cover its attributable costs.

The GEPS - NPR 13 product, like the GEPS - NPR 1 through GEPS – NPR 12 products, should address these problems by eliminating the need for each agreement to be added to the competitive products list individually and by making the rates for each weight step and country group destination based on certain factors and downstream access option available immediately for the customer's consideration.

I am not aware of any negative views from international negotiated service agreement customers concerning the proposal to add GEPS - NPR 13 to the competitive products list.

(h) Provide a description of the likely impact of the proposed modification on small business concerns.

The business concerns that engage in international package delivery services typically are not small business concerns, because of the resources necessary to compete in the industry. Large shipping companies, consolidators, and freight forwarders serve this market, particularly with respect to the type of

customers represented by the GEPS - NPR 13 product; the Postal Service is unaware of any small business concerns that could offer comparable service for these volumes.

The small business concerns utilizing the GEPS - NPR 13 product will likely observe a positive impact. By offering GEPS - NPR 13, the Postal Service will be able to more quickly provide the small businesses access to pricing incentives that will help them reduce their own cost of doing business.

- (i) *Include such other information, data, and such statements of reasons and bases, as are necessary and appropriate to fully inform the Commission of the nature, scope, significance, and impact of the proposed modification.*

None of the numerous contracts presented to the Commission as customized GEPS contracts in separate dockets (such as GEPS 3 agreements) were rejected by the Commission. For each of these customized contracts that was added to the competitive product list, the Postal Service filed a notice and the Commission established a docket to review the agreement.

The GEPS-associated administrative costs to both the Postal Service and the Commission are substantial in comparison to the individual contribution that each GEPS agreement can produce. Collectively, the GEPS agreements make a substantial contribution to international revenue and are certainly worthwhile to both the Postal Service and its customers. By refining the reformulation of the product into a niche classification as GEPS - NPR 13, the Postal Service loses a minimal amount of pricing flexibility to capture more significant investment of time and resources and brings a better product to its customers.

The annualized minimum commitment for Qualifying Mail set forth in Article 11 shall be recalculated pro rata to reflect the reduction in available service time.
